The Winfield Nurseries

Owned and Operated by
THOMAS ROGERS & SONS

GROWERS OF HARDY WESTERN NURSERY STOCK

Over 150 acres of rich fertile Arkansas River Valley land devoted to the propagation of nursery stock for your order.

We present you herewith the prices of our nursery stock for the present season. We have endeavored to keep these prices as low as possible, as consistently low as good quality trees and plants can be grown. However, we have not, nor never will, sacrifice good quality for low prices. You will find our standards to as high, or higher, of those of past seasons and in buying your nursery stock of us you are not only getting the benefit of exceedingly low prices but the best quality trees and plants which is possible for us to produce. If you have anything in mind not quoted herein or which has not been mentioned in our catalogue we want you to feel free to ask us about it.

Packing We have one of the most modern equipped packing and storage plants in the middle west and this fact assures you that your order will reach you in fine condition. Do not wait to send in your order. DO IT NOW, and be sure of getting just the varieties and sizes that you want. We will not ship out your order until weather conditions are favorable in your locality. Our trees and plants are free from insects. Our nurseries have been inspected by our State Entomologist. A copy of the State Entomologist's Certificate of Inspection is attached to every shipment of nursery stock which we make. A copy of the Certificate of Inspection follows:

What We Agree To Do: Pack stock to reach you in good condition. If it does not, notify us upon arrival of stock and we will make satisfactory adjustment. Should any plant die during first season after planting, having had good care, we will replace same at one-half the purchase price.

Non-Warranty In the event that any stock by us should prove untrue to name under which it is sold, we hereby agree on proper proof of such untruthfulness to name to replace that portion of the order proven untrue to name or to refund twice the purchase price thereof. Except for such liability, and in respect to all nursery stock sold by us, we give no warranty, express or implied, as to description, growth, productiveness, or any other matter.

THOS. ROGERS & SONS NURSERIES

Office of the State Entomologist, University of Kansas. Lawrence, June 12, 1926 No. A 1407. Certificate of Nursery Inspection—This is to certify that in accordance with Section 14041 of the General Statutes of 1915 the nursery stock now growing for sale by Winfield Nurseries (Thos. Rogers & Sons) of Winfield, Kansas, has been inspected by a duly authorized inspector, and found apparently free from dangerously injurious insects or plant diseases.

Invalid after June 1, 1927.

H. B. HUNGERFORD, State Entomologist.

Apple Trees

2 to 3	5-16 to 7-16	.50	4.50	40.00

NOTE:

Our fruit trees are graded by "caliper" as well as by height. By "caliper" we mean the diameter of the tree which is measured two inches above the collar of the tree. Grading by caliper determines that you will get a good stocky tree for the specified height. Caliper, rather than height, governs our grades.

An unlooked for and exceedingly heavy demand for our Kansas Dukes and Japan Blood Dwarf is rapidly taking up our trees in these two popular varieties. To insure all of our customers a chance at these two varieties we cannot sell more than 100 Kansas Dukes or more than 100 Japan Blood Dwarfs to one customer.
